

SYLLABUS

University Unit:

Center for Biological and Health Sciences

Graduate Program:

Developmental Disorders

Degree: Master degree Professional Master degree Doctoral degree**Subject**

Research Methods

Professors

Elizeu Coutinho de Macedo

Silvana Maria Blascovi de Assis

Cristiane Silvestre de Paula

Observation:

Workload:	Credits:	<input checked="" type="checkbox"/> Required
48 h/a	04	<input type="checkbox"/> Optative <input type="checkbox"/> Elective

Syllabus:

Presents the main types of research methods helping students to handle of their research projects; correlates research strategies with different kinds of experimental models; describes different levels of measurements and variables; assists the development of research projects using practical activities; Promotes debates based on previous PPGDD's theses/dissertations; Explores statistical software for data analysis using practical activities.

Program Content:

1. Human scency research
2. Quantitative Research (Experimental Research; Variable types of research; Experimental design and hypothesis test; Statistical Analysis)
3. Qualitative Research (the relationship between researcher and subject; different types of researcher participation; Ethnography; case study; action research methods)
4. Development of the research project (Defining the theoretical rationale; stablesching aims and the data analysis).

Evaluation Criteria

Different types of evaluative activities will be conducted, including exams, exercises, and oral activities. Student participation in the classroom and based on practical activities might compose the intermediate evaluations. Participation will be evaluated according to the student commitment, interaction and ethical attitudes.

Evaluation:

According to the General Regulation of Stricto Sensu Post-Graduation, Art. 98:

A - excellent: corresponds to scores in the interval between 9 and 10;

B - good: corresponds to scores in the interval between 8 and 8.9;

C - regular: corresponds to scores in the interval between 7 and 7.9;

R - reproved: corresponds to scores in the interval between 0 and 6.9.
