Exchange Students at MPU

Deadline for First Semester 2023

It's time to start the plans for the second semester in South America! Mackenzie Presbyterian University is open to receive students for face-to-face exchange. Our deadline is **October 20th** to receive applications for the first semester (classes from February to June). More information [here](#).

What is new at MPU

Mackenzie International Week

Mackenzie Presbyterian University (MPU) held the 2nd International Week from September 19 to 23. The event offered the opportunity for students and professors of all levels (undergraduate and graduate) to learn about internationalization opportunities at the university. Various activities were offered, including lectures with partner institutions, panels to present works in collaboration with foreign professors, as well as international research.

The opening lecture was Intercultural Competence: What, Why, How?, given by Dr. Kris Acheson-Clair, responsible for the Purdue University's Center for Intercultural Learning, Mentorship, Assessment, and Research (CILMAR). [Read more here](#).

Research and Awards

Mackenzie develops world's first telescope for research the infrared solar activity

The Mackenzie Center for Radio Astronomy and Astrophysics (CRAAM), at Mackenzie Presbyterian University (MPU), developed the solar telescope for the mid infrared, called HATS, a world pioneer to observe the solar activity in this spectral band.

CAPES PrInt Program 3rd International Multi-project Symposium

Mackenzie Presbyterian University (MPU) held the 3rd International Multi-project Symposium from the CAPES PrInt Program from September 27th to 30th for students and professors of all levels (undergraduate and graduate), to showcase all the results achieved during the implementation of the project.

The CAPES PrInt is an Institutional Internationalization Plan that is implemented on 36 Brazilian universities including Mackenzie Presbyterian University, with a granted fund of 10 million Reais, which aims to improve the university's internationalization in multiple levels, ranging from collaborative research projects with foreign entities to academic mobility of both students and professors. Provost of Research and Graduate Programs, Professor Felipe Chiarello highlighted the importance of internationalization and research saying how his teachers changed his life when they offered him an opportunity to go to Harvard and the New York University.
