Ricardo J. E. Andrade

Assistant Professor
MackGraphe - Graphene and Nano-Material Research Center
Mackenzie Presbyterian University

Zurich, April 3rd, 2018

Your proposal "From Microscope to Telescope"

To whom it may concern,

This is a letter serves to support the proposal "From Microscope to Telescope: Interdisciplinarity to Foster Human Development," currently being submitted by Universidade Presbiteriana Mackenzie to Coordenação de Aperfeiçoamento de Pessoal de Nível Superior (CAPES) within its internationalization call.

I confirm my intention to collaborate with the research theme "Micro and nanostructured multifunctional materials", by receiving students and researchers from Universidade Presbiteriana Mackenzie, as well as sending researchers from the Department of Materials, Soft Materials laboratory (ETH Zurich) to visit MackGraphe.

Sincerely yours,

Jan Vermant
Professor of Soft Materials,
Department of Materials, ETH Zürich
