Declaration

To whom it may concern,

This is a letter in support of the proposal “From Microscope to Telescope: Interdisciplinarity to Foster Human Development,” currently being submitted by Universidade Presbiteriana Mackenzie to Coordenação de Aperfeiçoamento de Pessoal de Nível Superior (CAPES) within its internationalization call. Within the proposal, I confirm my intention to collaborate with the research theme “The Nano- and microscale: functional materials and devices” by receiving students and researchers from Universidade Presbiteriana Mackenzie, as well as sending researchers from my Group at Instituto de Investigação e Inovação em Saúde – Universidade do Porto, Portugal, to visit Mackenzie.

Yours sincerely,

A handwritten signature in black ink that reads "Bruno Filipe Carmelino Cardoso Sarmento".
